

Wednesday is a Good Friday

Va-Bene Fiatsi (crazinist artist), Multidisciplinary performance activist and the artistic director of perfocraZe International Artists Residency (pIAR), brings conversations into Living Room that question social constructivism of human existence in relationships with gender, sexuality and body stereotypes. Bear witness to Va-Bene as a voice and challenge your gender norms in order to break the stereotypes and stigmas in our communities. In conversation with Selam, Walaa and Mo.
